			Reproduction in animals	modes of reproduction development of embryo	identify the eggs of different Oviporous animals 8				
				binary fission in amoeba viviparous and oviparous animals	to observe the permanent slides of hydra				
August	25		Chapter 7						
		25	Reaching the age of Adolescence						
				adolescence and puberty	10				
				changes at puberty secondary sexual characters	identify the nutritious and junk food				
				reproductive phase of life in human	Classroom				
				menstruation and menopause determination of sex of the baby endocrine glands	Discussion on changes observed in puberty				
September			Revision for MIDTERM	practice Test paper					
				Questions from the other author book					
			syllabus for midterm - chapter 1 to 7						
October	18	15	Chapter 8				B. Nagamani		
			Force and pressure	a force can change state of motion	6				

				types of Forces	a liquid exerts pressure on the walls of the container				
				contact and non contact forces					
				atmospheric pressure	pressure at a point in a liquid depends on its depth				
					to get an idea about the magnitude of atmospheric pressure				
			Chapter 9						
			Friction	force of friction	7				
				actors affecting friction	to show that rolling friction is less than sliding friction				
				way to increase friction					
				way to reduce friction and fluid friction					
November	20	20	Chapter 10						
			Sound	sound is produced by vibrating body	8				
				sound produced by human	to observe and understand the working of ear drum				
				sound needs a medium to propagate					
				structure of ear	to show that sound can travel through solids liquid and gases				
				characteristics of an oscillation					

				audible and inaudible sound	to make a model to demonstrate working of vocal cards				
			Revision for post mid term						
			Syllabus - chapters 8,9,10						
Decemb er	26	24	Chapter 11	conduction of electricity	7				
			chemical effects of electric current	to show the distil water is an nonconductor of electricity					
				to test the conductivity of some liquids using a magnetic detector					
				to observe the change in colour due to chemical effect of electric current					
January	26	26	chapter 12						
			some natural phenomena						
				Some natural phenomenon	to observe the transfer of charge through a metal conductor				
				types of churches and their interaction					
				lightning safety	to show that like charges where as unlike or opposite charges at that each other				
				lightning conductor	7				
				causes of an earth quake	Chart prepare on structure of earth				

				magnitude of an earthquake					
				protection against earthquakes					
			Chapter 13						
			Light	Laws of reflection					
				formation of image by a plane mirror	to understand formation of image by plane mirror				
				regular and diffused reflection	9				
				sunlight white or coloured	to observe that reflected light can be reflected again				
				what is inside our eyes					
				care of the eyes	to make a kaleidoscope				
				visually challenged persons can read and write					
		February	revision						
				practice Test paper					
				Questions from the other author book					
			REVISION FOR FINAL TERM						
			syllabus - chapters 2,6,7,8 to 13						
			1. Field visit	1. To observe agricultural implements					
				[plough, leveller, cultivator, seed drill, hoe]					
				and crops in different seasons			B. Nagamani		
			2. science museum	To observe the model of coal and petrol formation
